

2ND ENII - MUGEN SUMMER SCHOOL IN ADVANCED IMMUNOLOGY

CAPO CACCIA, SARDINIA

APRIL 14-21, 2007

Guest Speakers

Y. BERGMAN

■ *Genetic and epigenetic control mechanisms during B cell development*

M. COLONNA

■ *NK cell signaling: activating and inhibitory pathways*

B. GICQUEL

■ *Host-pathogen interactions in tuberculosis*

D. KIOUSSIS

■ *Imaging lymphoid organogenesis*

E. LIEW

■ *Self defense vs. self destruction*

B. MALISSEN

■ *T cell activation*

L. MORETTA

■ *NK cells, their receptors and functional interactions in innate immunity*

J. NEEFJES

■ *Defining novel routes for intervening with antigen presentation by MHC molecules*

A. O'GARRA

■ *Cytokines in the regulation of immune responses*

A. PHALIPON

■ *Manipulation of host innate and adaptive immune responses by enteric bacteria: the Shigella paradigm*

F. POWRIE

■ *Intestinal homeostasis: a balancing act between effector and regulatory T cell responses*

P. RICCIARDI-CASTAGNOLI

■ *Dendritic cell functions*

A. RUDENSKY

■ *Dominant tolerance and regulatory T cells*

B. STOCKINGER

■ *Th17: a missing link in the immune system*

M. van den BROEK

■ *On the induction of immunity and peripheral tolerance*

P. VIEIRA

■ *Fetal and Adult B cell development*

Conference Venue

**PORTO
CONTE
RESEARCH
CENTRE**

Accommodation

**HOTEL
CAPO
CACCIA**

REGISTRATION

DEADLINE:

February 1st, 2007

*The number of participants
will be limited to 150*

Summer School Board:

B. Arnold

J. Di Santo

G. Haemmerling

B. Malissen

P. Ricciardi-Castagnoli

M. Van den Broek

Summer School Organiser:

Paola Ricciardi-Castagnoli

ENII Council President

University of Milano-Bicocca

paola.castagnoli@unimib.it

Information:

ENII Secretariat

info@enii.org

Keynote Lecture • Richard Flavell
Regulation of immunity by cells and cytokines

www.enii.org
